

Nature's Directions for Installing Love

Nature: Yes, how can I help you?

Inquirer: Well, after much consideration, I've decided to install Love. Would you guide me through the process

Nature: Yes, are you ready?

Inquirer: I'm not very technical, but I think I'm ready. What do I do first?

Nature: First, open your heart. Have you located your heart?

Inquirer: Yes but programs are running, do I install Love with them running?

Nature: What programs are running?

Inquirer: Past-Hurt, Guilt, Grudge, Resentment, Anger at the past and Fear of the future are running.

Nature: No problem. Love erases Fear and Anger; it will gradually erase Past-hurt from your operating system. Past-hurt may remain in your permanent memory, but will no longer disrupt other programs. Love will eventually override Guilt with a module called Forgiveness. However, you have to turn-off Grudge and Resentment. Those programs prevent Love from being properly installed. Can you turn them off?

Inquirer: I do not know how; would you tell me how?

Nature: Certainly. Go to the Start Menu and click Forgiveness. Do this repeatedly until Grudge and Resentment are completely erased.

Inquirer: Fine, I did it. Love has begun installing. Is that normal?

Nature: Yes, however, remember you only have the basic Love program. You need to connect to other Hearts in order to obtain up-grades.

Inquirer: Hold on, an error message reads: "Error-program: do not run on external programs". What should I do?

Nature: No problem. That means the Love program only runs on Internal Hearts, but has not yet run on your Heart. So, you have to love yourself before you can love others as a condition of downloading the basic love program.

Inquirer: So, what do I do?

Nature: Pull down the "Self-Acceptance" dialogue box; click on the following files: Forgive-Self, Realize Your Uniqueness, accept the responsibility of yourself being irreplaceable and Acknowledge-Your-Limitations.

Inquirer: I did that.

Nature: Now, copy them to the "My Heart" system directory. The system will override conflicting files and correct faulty programs. Also, delete Verbose Self-Criticism from all directories then empty the Trash.

Inquirer: Wow, My Heart is filling with new files. Smile appears on my monitor and Peace and Contentment are copying themselves to My Heart. Is this normal?

Nature: Sometimes, however, in other cases it takes a while. One more thing before you hang-up: Love is Free-ware, a gift. Be certain to give it to everyone you meet. Then they will share this gift with others and return some cool modules back to you.

Inquirer: I promise to do that, but what is your name?

Nature: Just call me the nurse to the Divine Cardiologist, also known as the Great Physician who is "I Am Love". Most people need a yearly check-up to stay heart healthy, however, the manufacturer, I Am and the nurse, nature suggest daily maintenance of self-reflection and self-knowledge for maximum Love efficiency. ©rgb04/02;02\05
